Decision making at the Blyth Primary School is initiated and carried out at different levels.

They include:

*The Department of Education and Children’s Services*
*The Governing Council*
*The Principal*
*The Staff*
*The Students*
*The Hub Group*

This statement is to help make all of the school community aware that there are a variety of personnel involved at the school, and that an avenue exists for all to be involved.

Due to the broad range of decisions made within the school structure, involvement of particular groups and the consultation process will vary. We try to be inclusive in our decision-making, but at times expediency often requires decisions to be made by the executive.

Where decisions need to be made which effect a large range of people then the breadth of consultation will reflect the significance of the decision.

An overview of the groups, their role and reporting structure is included for your information.
