While we have non-violent consequences that follow inappropriate behavioural choices, our clear emphasis is on teaching, supporting and encouraging children to self manage their own behaviour.

  Some proactive strategies in supporting students in their learning around behaviour include:
  • Teachers being aware of their duty of care, and utilising sound communication and problem solving skills as issues arise
  • Teachers being trained in mandatory notification and basic casualty care
  • Our active Student Council who negotiate a *School Code of Conduct* with all students and staff
  • Student opportunities to develop responsibility through various roles within the school
  • Teachers being on duty at play times (8.30am until 4.00pm)

Sun Protection Policy

Skin cancer is the most common and costly cancer in Australia. It has been estimated that up to 90 percent of skin cancer could potentially be prevented if people reduced their exposure to the sun. As over exposure to the sun in the first 15 years of life has been consistently identified as a major risk factor for developing skin cancer our Sun Protection Policy involves a broad range of strategies. These all aim to encourage students and school adults to adopt sun protective behaviours in an effort to assist individuals in developing personal responsibility towards protection from the effect of UV radiation.

HAT POLICY

At Blyth Primary School the wearing of broad brimmed hats is compulsory all year round. Students should therefore have access to a broad brimmed hat at school all year round. The school has navy wide brimmed hats and bucket hats for sale. Our hats have a 50+ Ultraviolet Protection Factor (UPF) therefore offer excellent protection for students.

PROACTIVE STRATEGIES

- Students who do not have their hats will be asked to play in an area protected from the sun or wear a spare hat for fitness and excursions.

- School polo shirts are 40+ UPF and have collars and short sleeves.

- Outdoor activities will be scheduled before 10.00 am and after 3.00 pm where practical.

- Outdoor activities are to be conducted in shaded areas when possible.

- SPF 30+ broad-spectrum water-resistant sunscreen will be provided for staff and students and ideally applied 20 minutes before going outside. Sunscreen is available from the classroom teacher. Staff will ensure that sunscreen is not out of date.

- Discussion about skin and ways to protect it from skin cancer will be included in the Health Curriculum.

- Staff modelling Sunsmart behaviour

- Newsletter items referring to parents and caregivers being positive role models

- Requesting parents to wear hats when accompanying children on outings and sporting events.

Decision making at the Blyth Primary School is initiated and carried out at different levels.

They include:

The Department of Education and Children’s Services
The Governing Council
The Principal
The Staff
The Students
The Hub Group

This statement is to help make all of the school community aware that there are a variety of personnel involved at the school, and that an avenue exists for all to be involved.

Due to the broad range of decisions made within the school structure, involvement of particular groups and the consultation process will vary. We try to be inclusive in our decision-making, but at times expedience often requires decisions to be made by the executive.

Where decisions need to be made which effect a large range of people then the breadth of consultation will reflect the significance of the decision.

An overview of the groups, their role and reporting structure is included for your information.
