### NEWS FROM THE PRINCIPAL - TERM 3 WEEK 9

Gday Everyone, it is a crazy thought to realise we are about to enter the final week of term 3. It has been an amazing term with such a wide range of learning and new experiences. I had the privilege of being in the JP class as Mrs Brown set up a Zoom session with her old school at Kiwirrkurra, which is located in the Gibson Desert. It was an amazing opportunity for our learners to find about about life and schooling there, and a chance to ask some wonderfully thought out questions.

The community engagement has blown me away so far this term. Thank you to everyone that has contributed to the school and school grounds. The playground soft fall and edging has been completed. Our 5/6 learners were so keen to get it done, the working bee accomplished a lot of other jobs, like removing an old buried concrete creek. Our lunch benches are looking awesome after our learners and parents worked together to refurbish and restore. Our AG/OSHC/Playgroup space has also begun a makeover with great input from all groups. Our parent club is contributing funds for new storage, and toward re-covering the pinboards. You can see some amazing changes already, and we are only half way through the project!

The most powerful engagement we have had so far has been parent, family and friends coming into our school on Thursday morning and listening to our learners read. It builds on reading & comprehension skills as well as fostering good relationships and confidence. Please let me know if you would like to be involved.

Last week we had a surprise visitor on our oval. It was an awesome impromptu lesson on echidnas and monotremes and the unique place they have in the world. It was a great learning opportunity where all of our learners displayed wonderful curiosity and a wide range of questioning skills. There was knowledge shared between all of our learners. After someone suggested we build a yard for the echidna, it was time to bid farewell and let them go on their way. It is a beaut example of what can happen in our wonderful space.

To finish the term off we have an excursion to the Paskeville Field Days where we will be exploring the exhibitions and building on our Ag knowledge. Our Year 6 learners are off on a camp with year 6's from around the area for three days. This is a great opportunity for them to renew friendships, and build new ones as they prepare for the transition to high school. Don't forget an early finish on Friday to end term three. We reconvene for term 4 on 16th October.

Matt Stewart, Principal

**Thursday**

YP Field Days Excursion

**Friday -**

Early Dismissal @ 2.20pm

# JP NEWS FROM THE WARATAHS

In HASS the Waratahs have been learning about Invasive species and their impact on our native animals and environment. In particular, we have focused on the devastation caused by feral cats. We had the privilege of zooming into the Junior classroom in Kiwirrkurra, one of the campuses of the Ngaanyatjarra Lands School where I worked for 6 years. The children from Kiwirrkurra told us about the work they do with the local rangers to protect the bilby and other native animals from the wild cats. The Waratahs asked some excellent questions about the work and the children's experiences On Country. The meeting was wonderful and both classes have expressed the desire to link up again in Term 4.

Geoffrina and Satita were excited to meet the Blyth students.

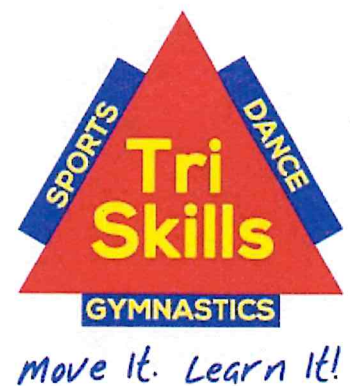

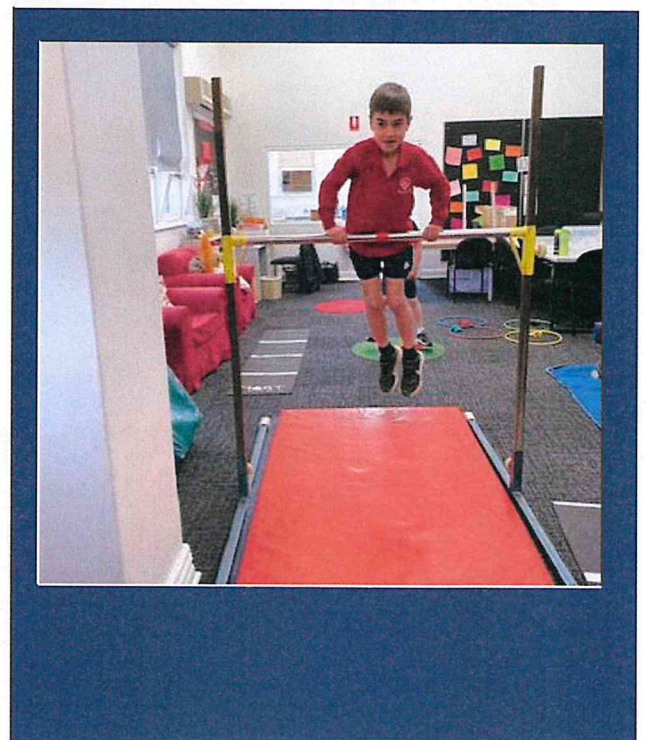

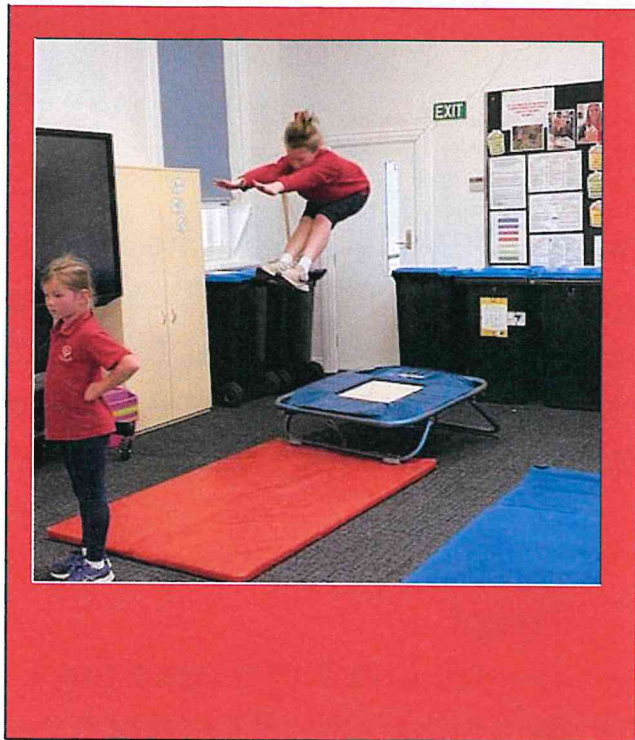

We have been learning about Mindfulness and the importance regulating our feelings. The whole class made a 'Feelings' bottle.

We filled the bottle with water and then added glitter and a dash of detergent. We secured the lid and gave the bottle a shake. As we watched the glitter settle we practiced our deep breathing.

The students used the new Surface Pros to create their own Information Report about an Introduced or Native animal. They were able to upload photographs and information about their animal. Everyone is very proud of their work.

# JP NEWS FROM THE WARATAHS

The whole school has been enjoying Tri-Skills in the past few weeks. Students have enjoyed using the equipment and meeting the challenges posed by Megan our Instructor. We have some very talented gymnasts in our class!

## Roller Coaster Construction Zone!

Working on “The Wasp”

In our STEM Creative Time, students were given the task of building a model design of a Roller Coaster for the new Blyth Theme Park. Their Roller Coaster needed to include:

- An attention grabbing name and design
- At least one 360 degree loop
- Be a minimum of 1 metre long
- Be able to run a marble from the top to the bottom

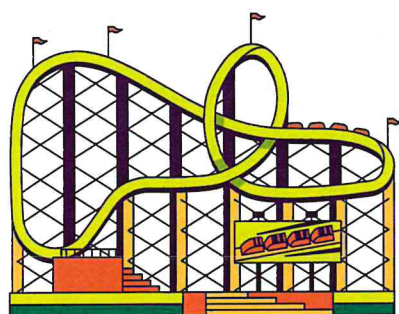

“The Blue Devil”

It took a lot of trial and error to get the design working properly, but they showed great persistence in getting these made.

“The Golden Glory”

# UP BOTTLEBRUSH CLASS

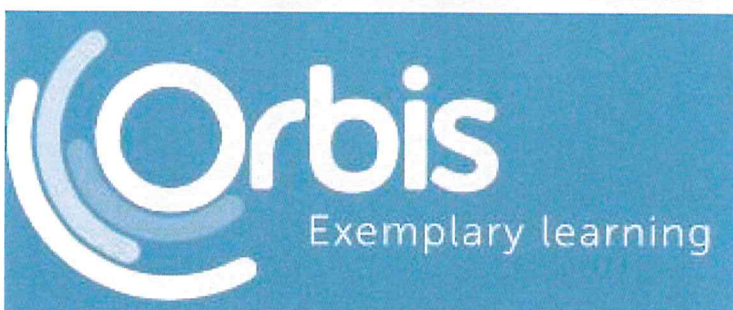

## LACHIE AND MAX VISITED CLARE HIGH SCHOOL

Max- The high school was really cool I like the canteen and the classrooms are really spacious. I'm really excited and a little bit nervous about going there.

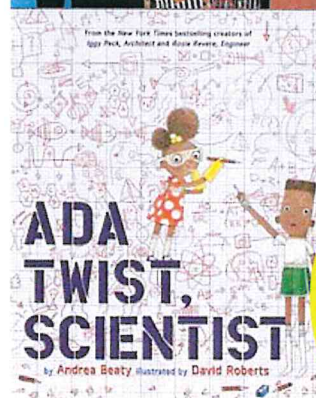

Lachie- It was very fun looking around. There are a lot of subjects, and it is really big. I feel excited because I can do Tech and Ag.

Mrs Jones presented the findings of her research project last week. This project found that with a series of 6 lessons all students increased their ability to create evaluative questions. Now all students across the school are working on creating evaluative questions during whole school reading on Fridays. Below are examples of these questions.

Why do you think Ada only started to talk at age 3?

Do you agree with her parents after she drew on the walls?

## MID NORTH SAPSASA Athletics

Due to placing 1st Josh (discus) and Harper (100m, 4x100m, 800m and long jump) went on represent the Mid North on Monday this week in Adelaide.

It was a really fun day. It was good meeting lots of people and versing lots of people in my events. I beat all my personal bests, and it was a great experience.

Harper

**EXCITING NEWS:** Harper has been asked to nominate for the SA under 12's team, who will compete in the Australian All Schools Athletics Championships, to be held in Perth in December

We went to Santos Stadium in Adelaide and we went in and saw the rest of the Mid North team. We watched some of the team run the 1500m. At 10:45 it was time for my event. I went to throw the discus. There were 22 kids but only 12 in my division. Everyone had some pretty good throws, and I came 7th out of 12. Josh

Last Monday

George, Josh, Harper and Milly proudly represented Blyth Primary at the Mid North SAPSASA carnival at Clare High School.

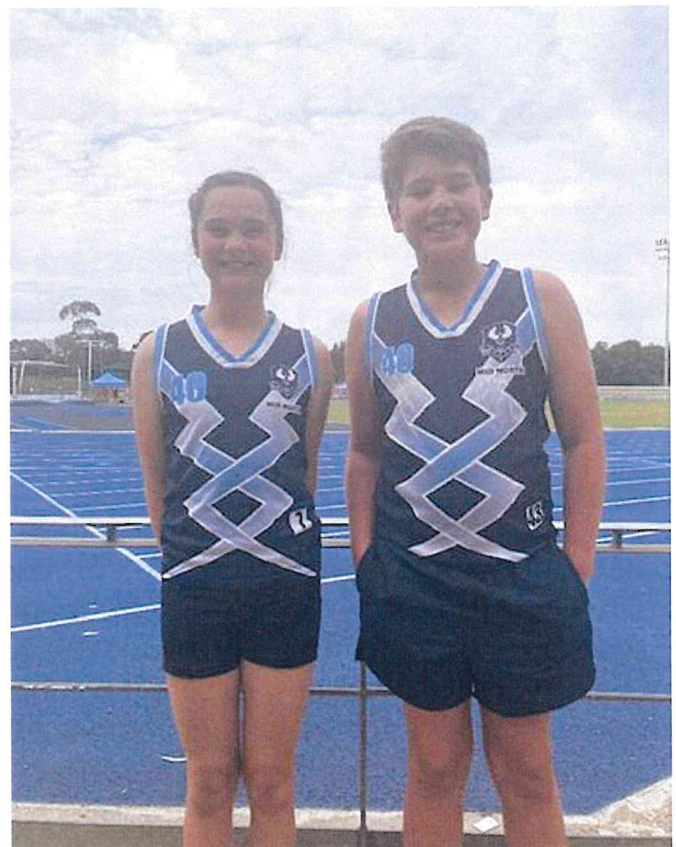

### EVENTS

George 800m

Josh discus & shot Put

Harper 100m, discus, long jump, 800m, 4x100m relay

Milly 100m, 800m, long jump, 4x100m relay

# WHOLE SCHOOL ACTIVITIES

*Move It. Learn It!*

Tri Skills have been helping us to learn new movement, balance and coordination skills on Monday afternoons. We have had a great time!

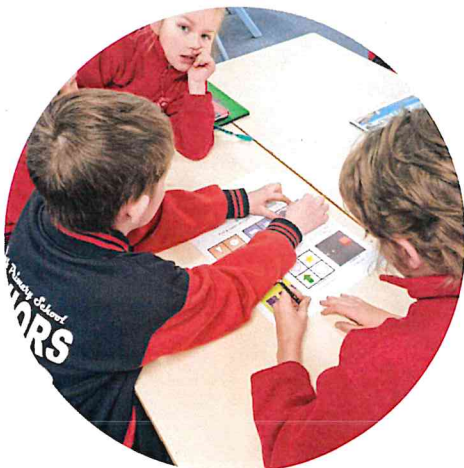

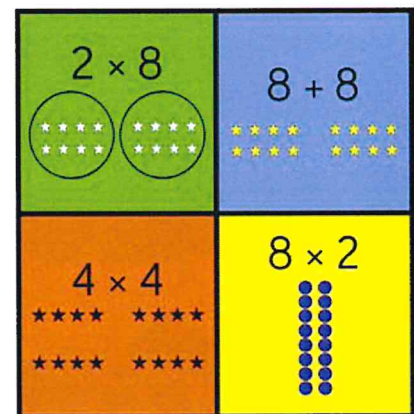

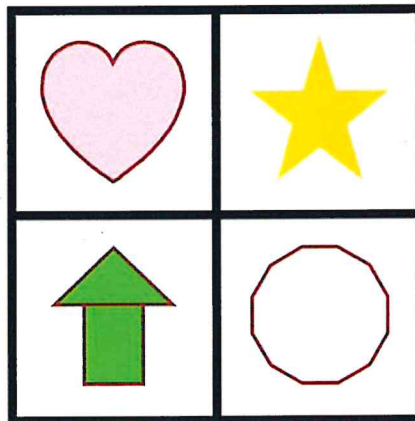

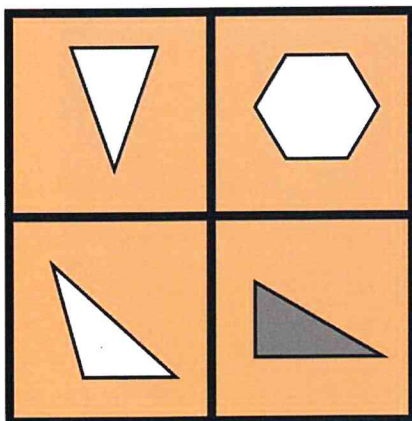

## WHOLE SCHOOL FRIDAY MATHS

### *Which One Doesn't Belong?*

In mixed age groups, students were given images with a set of four things. Their task was to decide which item did not belong and to explain to us their reasoning for why it was the odd one out. We discovered that it wasn't always as obvious as you might think, depending on what way you looked at it. For example if you were judging by colour, it would be different to if you were looking at shape.

56	45
32	24

In AG we have been doing experiments that are really testing our brains such as salt water, taste the rainbow and Coke and Mentos. We have also started renovating the AG room. The kids are having a lot of fun pulling things down from the pin up boards. In AG for the past few weeks Mr. Wood has brought in some little chicks for us to see. The Junior Primary were lucky enough to be able to hold them. Mr. Wood is making AG super fun.

In AG we are planning on making an orchard out on the eastern side of the oval we are planning on planting fruit trees Carrie Hayes came out to tell us what and where we can plant the fruit trees. The JP have been planting potatoes, looking after the chickens and seeing what they need to help them survive. The Year 3 to 6s have been growing mushrooms that have grown so well, that we are able to eat them. Everyone has had a try of them either again or for the first time.

By Milly and George

# PASTORAL CARE CORNER

Greetings everyone,  
I'm so excited, the time has arrived for us to pack our boxes for Operation Christmas Child. We will be packing our boxes on Monday 25th September. Please make sure that if you have anything you would like to donate, it is at school first thing Monday morning.

PLUS.... we have a special guest speaker coming to visit us at school. His name is Florin. He will be sharing his story on how receiving a box impacted his life. Please join us at Monday morning meeting 9 am, in the Upper Primary Class to hear his story.
